

Bramley Baths

Bramley Baths is a community-led, not-for-profit centre for fitness, health and fun, which houses a public gym, swimming pool and space for community events, meetings and fitness classes.

CHALLENGE

The challenge is providing accessible, affordable health and wellbeing provision locally which addresses individual needs whilst providing an environment where everyone feels welcomed, valued and part of the community.

SOLUTION

The investment helped to raise essential funds in order to restore and repair the roof structure. Although the organisation has operated successfully as a social enterprise for 11 years, being housed in a heritage building can have its challenges.

REVENUE

Bramley Baths generate revenue by selling goods and services to not for profit businesses, individuals and public sector bodies. Services include swimming lessons, facilities, memberships (including one off visits), events and space hire.

IMPACT

The money will, in the first instance, ensure that the roof is safe and secure for at least 40+ years ensuring the continuous full-service delivery.
