

Make CIC

A purpose-driven social enterprise based in Liverpool that creates vibrant spaces and community hubs where artists, makers, and small business owners can work, collaborate, and grow.

CHALLENGE

To continue supporting local makers and artists, they needed flexible funding that understood their social impact and could help them grow sustainably.

SOLUTION

In June 2024, Make CIC received a blended social investment package from the Flourish Fund. This included a £150,000 loan and a £25,000 grant. The funding helped Make CIC continue developing its hubs and refurbish premises.

REVENUE

Make CIC generates income in several ways. It rents out studio and workspace units to local makers, artists, and small businesses.

IMPACT

The investment has had a significant impact on both Make CIC and the communities it serves. It helped sustain services for 155 people annually who rely on flexible workspaces to grow their businesses.
